The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

112 rejections are withdrawn in view of applicants amendment and explanations.

Claims 1-7, 11, 14-19, 22, 26 are rejected under 35 U.S.C. 102(b) as being anticipated by Hile et al '2000.

The rejection of record stands.

Applicant's arguments filed 1/12/05 have been fully considered but they are not persuasive. Applicants fail to find each claimed element in a single reference, and argue Hile is not for intraluminal prostheses. However, we find the methods of Hile produce the same thing as that of the instant product intended to be used intra lumingly, even if "intraluminal" is absent. The fact that the intraluminal prosthesis is suitable in vivo is not seen as altering the patentability of the process of making; p.177, 2nd column and 178 left columns recite transplantation and in vivo use.

Claims 8-10, 12, 13, 20, 21, 23-25 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 1615

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
